INTRODUCTION

World No Tobacco Day is celebrated intending to aware and encourage people to reduce or completely stop the tobacco consumption in any and all forms all across the globe. This day's celebration aims to draw public attention globally to spread the messages of harmful effects of tobacco use as well as its complications to others. For World No Tobacco Day 2016, the World Health Organization and the Secretariat of the WHO's Framework Convention on Tobacco Control are calling on all countries to get ready for plain (standardized) packaging of tobacco products. Plain packaging is an important demand reduction measure that reduces the attractiveness of tobacco products, restricts use of tobacco packaging as a form of tobacco advertising and promotion, limits misleading packaging and labeling, and increases the effectiveness of health warnings.

In Pakistan, SAMAR is actively engaging civil society organizations for tobacco control at national and sub-national levels under its nine year old Coalition for Tobacco Control Program known as CTC-Pak. Though the world has started moving towards plain packaging but Pakistan is still facing issue to enlarge Pictorial Health Warning (PHW) on cigarette packs. As this year's theme for World No Tobacco Day is on "Plain Cigarette Packs" whereas Pakistan will still be fighting for its right to clean and safe air to breathe.

In March 2015, the Government of Pakistan announced enhancing of PHW on cigarette packs from 40% to 85% that was influenced by tobacco industry and yet, after 14 months, Pakistan has yet to see the new enhanced warning on cigarette packs. To negate government's interests with tobacco industry, civil society stood up for the interests of general public health and SAMAR has filed public interest litigation for immediate enforcement of enhanced PHWs.

WHO Theme: Plain Packaging

CTC-Pak's Project theme:

1. Larger Health Warnings on cigarette packs.
2. Comprehensive Ban on Tobacco Advertisements, Promotion and Sponsorship (TAPS).
3. Tobacco Industry Accountability (exposing industry-government interactions).

DEMANDS OF COALITION FOR TOBACCO CONTROL PAKISTAN ON WORLD NO TOBACCO DAY 2016

- ✔ Reiterating civil society's commitment to reduce the hazard of tobacco consumption
- ✔ Immediate enforcement of 85 per cent Pictorial Health Warning (PHW) on cigarette packs
- ✔ Strictly ban all forms of tobacco advertisements promotions and sponsorships completely
- ✔ Urging government to make their correspondence with tobacco industry transparent

BRANDING MATERIAL

For WNTD activates following branding material has been distributed during the above mentioned activities.

WORLD NO TOBACCO DAY ACTIVITIES

Each year the WHO marks World No Tobacco Day (WNTD) on May 31st highlighting the health risks associated with tobacco use and advocating for effective policy measures to reduce tobacco consumption. This year to observe the World No Tobacco Day, CTC-PAK collaborated with its 35 coalition partners to organize 57 activities at sub-national levels to address the tobacco control issues and to reduce tobacco consumption at different levels. The coalition partners displayed banners to educate the public about the health risks associated with tobacco products, the need for larger pictorial health warnings and the effectiveness of tobacco control policies all over Pakistan. The tobacco advocates expressed their concerns on the tobacco industry's interference for delaying the new enhanced 85 per cent warnings on cigarette packs through press conferences held in provincial capitals at cities of Peshawar, Faisalabad, Multan, Quetta and Karachi. The civil society is taking a firm stance to promote a healthy lifestyle without tobacco and putting all necessary efforts to demand implementation of larger health warning in the best interest of public health.

INTERNATIONAL ACTIVITIES

1ST REGIONAL WNTD CELEBRATION

FIRST INTERNATIONAL TOBACCO CONTROL CONFERENCE, SAUDI ARABIA: CTC-Pak was invited to represent Pakistan in the First International Tobacco Control Conference in Riyadh, Saudi Arabia, to celebrate WNTD at regional level. The two days conference was organized on May 31st and June 1st, 2016 by Saudi Ministry of Health in collaboration with World Health Organization which was attended by government authorities, members of GCC countries from EMRO region, media and civil society organizations from Saudi Arabia.

In the role of a "Technical Advisor", CTC-Pak analyzed the situation of tobacco industry manipulation in the region, including Pakistan, particularly with respect to the challenges to implementation of Pictorial Health Warnings and Plain Packaging by identifying gaps and necessary actions.

The tobacco control efforts by CTC-Pak at national and regional level were also recognized and appreciated in form of a souvenir presented by Saudi Ministry of Health during the WNTD ceremony.

FEDERAL ACTIVITIES PICKETING IN ISLAMABAD

To commemorate World No Tobacco Day, a total of 200 people gathered with Coalition for Tobacco Control Pakistan in a picket in front of Islamabad Press Club, F-6 on Monday, May 30, 2016, at 5:00 PM. The gathering extended the civil society support for immediate enlargement of 85% pictorial health warning on cigarette packs.

T20 FRIENDLY CRICKET MATCH

CTC-Pak partners engaged youth to celebrate this year's World No Tobacco Day and played a friendly T20 match at Railway Carriage Ground Rawalpindi. The purpose was to promote healthy lifestyle activities through sports in oppose to tobacco addiction and resultant health hazards.

PROVINCIAL ACTIVITIES

PRESS CONFERENCES

The partners of Coalition for Tobacco Control – Pakistan (CTC-Pak) during the press conference called for immediate enforcement of 85 per cent Pictorial Health Warning (PHW) on cigarette packs as per the Ministry of National Health Services, Regulation and Coordination’s (NHSRC) notification announced back in February 2015. The press conferences were held at provincial capitals press clubs including cities of Peshawar, Faisalabad, Multan, Quetta and Karachi on occasion of World No Tobacco Day. The partners expressed their concerns on the tobacco industry’s influence over the government authorities’ particularly NHSRC for delaying the new enhanced 85 per cent warnings on cigarette packs.

Below find list of press conferences organized at the provincial level across the country.

PRESS RELEASE

Tobacco control advocates call for immediate enforcement of 85 per cent Pictorial Health Warning on cigarette packs

Sub headline: Reiterating civil society's commitment to reduce the hazard of tobacco consumption

31 May, 2016, [CITY NAME]: The partners of Coalition for Tobacco Control – Pakistan (CTC-Pak) during the press conference called for immediate enforcement of 85 per cent Pictorial Health Warning (PHW) on cigarette packs as per the Ministry of National Health Services, Regulation and Coordination's (NHSRC) notification announced back in February 2015. The press conference was held at [CITY NAME] Press Club on occasion of World No Tobacco Day. The partners expressed their concerns on the tobacco industry's interference for delaying the new enhanced 85 per cent warnings on cigarette packs.

"Larger pictorial warnings have been proven effective all over the world to reduce tobacco use. Even India having six times the population of Pakistan implemented 85% PHW starting June 1st, 2016. It's been over 15 months since Pakistan announced to implement 85% PHW. Why have we not done it when we know it's timely implementation can reduce tobacco consumption?" [COALITION PARTNER ONE NAME], the CTC-Pak coalition partner, told at the press conference.

"India did not compromise the health of its public even after facing challenges from the tobacco industry. Why does Pakistan continue to delay it when we know there is no health budget allocated for tobacco victims?" [COALITION PARTNER TWO NAME], another CTC-Pak partner said.

"The rest of the world is going for plain cigarette packaging now. We urge the government to remain committed to its international and national obligations to protect public health and the Coalition for Tobacco Control stands by the government for this decision." [COALITION PARTNER] said.

[INFLUENTIAL/DISTINGUISH GUEST OF HONOR] shared his views that tobacco industry particularly targets its campaigns towards youth and children as its potential market. "We need to strictly ban all forms of tobacco advertisements completely. It is our duty to watch out for tobacco industry's tactics to lure in our children as future smokers." [INFLUENTIAL GUEST] told the press.

Each year the World Health Organization (WHO) marks World No Tobacco Day (WNTD) highlighting the health risks associated with tobacco use and advocating for effective policies to reduce tobacco consumption on 31 May. This year, the CTC-Pak including [COALITION PARTNERS NAMES] have organised 57 activities including banner displays and press conferences all over Pakistan to observe the WNTD.

According to WHO's report on tobacco consumption in Pakistan, nearly 108,000 people lost their lives annually due to smoking only while 1200 youth and children suffered with tobacco related diseases daily.

The CTC-Pak is working for immediate enforcement of larger pictorial health warnings (PHW) on cigarette packs and amendment in existing Tobacco Control Law for complete ban of all types of Tobacco Advertisements, Promotions and Sponsorships (TAPS).

###

PRESS CONFERENCE: PESHAWAR (KPK) [DEMAND CALL]

To commemorate WNTD, the Basic Integrated Rural Development Society (BIRDS) under the umbrella of CTC-Pak hosted a press conference at Peshawar Press Club where other collaborating partners including RISE, Social Uplift of Nowshera, Rural Development Organization (RDO), United Youth Welfare Organization (UYWO), Philanthropists Sans Frontiers Welfare Organization (PSF), SDV, RABTA Organization, Ghandara Organization For Change & Development (GOCD) were also present. The partners reiterated the immediate implementation of 85% pictorial health warning on cigarette packs. The partners also highlighted the hazards of use of tobacco products on the society. “Larger pictorial warnings have been proven effective all over the world to reduce tobacco use. Even India having six times the population of Pakistan implemented 85% PHW starting June 1st, 2016. It’s been over 15 months since Pakistan announced to implement 85% PHW. Why have we not done it when we know it’s timely implementation can reduce tobacco consumption?” Dr. Riaz YousufZai, the CTC-Pak coalition partner, told at the press conference.

Following the press conference, a demonstration was also held outside the press club where the participants chanted slogans against tobacco use and crushed cigarettes to register their protest against the continued consumption of the harmful substance.

PRESS CONFERENCE: FAISALABAD (PUNJAB) [DEMAND CALL]

In celebration of WNTD, the Maimar Development Organization with the collaboration of CTC-Pak hosted a press conference at Faisalabad Press Club. In the press conference, the partners expressed concerns over tobacco industry's interference in delaying the implementation of a framework which says 85 per cent of all cigarette packs should be covered with pictorial health warnings (PHW). Sharing what CTC-Pak has been doing to end or at least reduce tobacco consumption, Dr. Najma Afzal member Standing Committee Health (Punjab) said they have been engaging bureaucracy and lobbying to increase duty on tobacco products. Urging the government to remain committed to its international and national obligations to protect public health, youth activist Bilal Zafar said CTC-Pak stands in support of the government.

PRESS CONFERENCE: KARACHI (SINDH) [DEMAND CALL]

The WERO along with other regional coalition partners including Sindh Health & Education Development Society (SHEDS), Thatta Youth Development Organization (TYDO), Roshan Zindagi Development Association hosted a press conference and a public demonstration in front of Karachi Press Club to mark the internationally observed WNTD. Activists remind government of its international commitment to protect public health. In the press conference, the partners expressed concerns over tobacco industry’s interference in delaying the implementation of a framework which says 85 per cent of all cigarette packs should be covered with pictorial health warnings (PHW).

“Larger pictorial warnings have been effective all over the world to reduce tobacco use. Even India, having six times the population of Pakistan, implemented 85% PHW rule starting June 1. It’s been over 15 months since Pakistan announced to implement the 85% PHW rule. Why have we not done it when we know its timely implementation can reduce tobacco consumption?” Ali asked at the press conference, pointing out that in Pakistan currently a very small portion of cigarette packs is covered with warning images.
